SECRETARY FOR IRELAND GIVES CASUALTY LIST

(By Associated Press.) LONDON, June 16.—Murders by "rebels" in Ireland since July, 1920, have totaled 568, Sir Hamar Greenwood, chief secretary for Ireland, stated in the house of commons today.

The number of crown forces convicted for murder in the same period, he added, was "Military, none; Royal Irish constabulary, 1; police auxiliaries, one; the last named man being found to be insane."

PERSONAL

MRS. E. G. WILEY DIES IN RENO

The Reno Gazette of yesterday gives the following account of the death of Mrs. Elmer G. Wiley, wife of Elmer G. Wiley, a former prominent mill employer. The deceased lady is well known in Tonopah by university graduates like here.

Illness, following the birth of a child last Wednesday, caused the death this morning of Mrs. Elmer G. Wiley at the home of her sister on South Virginia street.

Mrs. Wiley, who was formerly Miss Gertrude Shady, was a graduate of the University of Nevada with the class of 1910 and was a native of Virginia City, where her parents, Mr. and Mrs. Henry R. Shady, reside. She was graduated from the Virginia City high school in 1911 with highest honors. She was a popular student at the university, complete the work in the degree of arts and sciences and in a normal school with distinct honors. She taught school for three years and became the bride of Mr. Wiley in 1913. They resided in "The Woodland" where Mr. Wiley is now connected with the electrical department of the Bell Telephone company.

According to attending physicians, death was not caused by any complications due to childbirth, but was an unusual trouble, which was fatal owing to her weakened condition. Her death occurred but one week to the hour from the time the baby, who has been named Robert, was born.

Besides her parents, her husband and the baby, she leaves two sisters, Miss Mary and Miss W. W. A. A. at the university for several years, and Emma, connected with the Nevada National bank. Mrs. Wiley was 27 years old. She was a member of the Nevada chapter No. 13, Order of Eastern Star. Funeral arrangements are now being made.

NEW GENERATION OF RUSSIANS ALL ARE BOLSHEVIKI

(By Associated Press.) WDA, June 16.—Most of the younger generation of Russians are bolsheviks, says Captain Merwin C. Cooper, of Jacksonville, Florida, the American officer who was captured by Russians while serving in the Polish army and recently escaped from a Moscow prison. He attributes this to the bolshevik educational system under which communism is taught in the schools.

"The schools are all red," he said, "and the educational program prescribes that the first thing to be developed in the mind of the child is the 'revolutionary conscience.' In prison, I saw several times children with their parents, the latter being anti-bolsheviks. The children were red and accepted their parents' imprisonment philosophically, wondering how they could go against the tenets they had been taught to absorb in the classroom."

"The communists lecture even in the prisoners, trying to convert the prisoners," he continued. "They even tried it on me. There were lectures or classes held very frequently. If a man said he was anti-communist and could convince the prison committee of that fact, he generally was released."

"Further in the line of skilled propaganda was the excellent treatment of the Polish war prisoners just before they were returned to Poland, under the repatriation agreement of the Polish-Russian peace treaty. Before each bunch was repatriated all the soldiers in it were given new clothes and new shoes, being well fed for several weeks, so that when they arrived in Poland they looked well fed, well dressed and, in short, were walking advertisements for the soviet government."

It is reported the governor of Connecticut appointed to office a man who had been dead for a year, and the fact that he didn't turn up to take the office proves that he is dead beyond hope.

The director of the Rockefeller Institute makes a plea to young women to take up science. For one thing, he suggested, there is the science of cooking.

RECOVERY OF PARALYZED MAN IS MARVELOUS

(By Associated Press.) DENVER, June 16.—(Conf.) Blind and paralyzed in every limb, so helpless that it was necessary to feed him by means of a tube through his nostrils, unable to feel, smell or taste or even to think to all intents and purposes, a man named Luther Dismore was cured of his paralysis and is now able to walk. His right side remains partly paralyzed.

Never was a man known to have lost all these faculties. Luther Dismore, an Irishman, says the doctors at the hospital. Dismore's brain was operated on, then, finally he began to be born again. Slowly the powers of life were redeveloped. One day when he could move one finger, then a whole hand, and after weeks he stirred his head upon its pillow, he was able to speak.

As yet Dismore's speech is confined to a whispered "yes" or "no," but he can make himself understood. On a map he can point out the location of his birth and with a pencil in his hand, laboriously, the name of the village.

THE HELICOPTER, NEW INVENTION, TO RAISE PLANES

(By Associated Press.) WASHINGTON, D. C., June 16.—A helicopter that in tests has already risen more than 1500 feet vertically from the ground has been developed in Austria, according to reports from a European correspondent of the National Advisory Board for Aeronautics. In view of the experiments now being conducted by aviators in many countries, particularly the United States, France and Great Britain, in an effort to design and construct a successful helicopter, the news is considered of great importance by flying men here.

According to the reports, the Austrian helicopter consists of a three-armed frame built of steel tubes, equipped with three built-in gasoline motors of the Le Rhone type, each developing 120 horsepower. The rotors drive two propeller shafts revolving in opposite directions and the shafts in turn drive two propellers arranged one above the other in a central shaft, each nearly 20 feet in diameter. The propellers are attached to the upper plane of the helicopter and revolve in opposite directions at about 600 revolutions a minute. In the center or "hub" of the device above the propellers is the operating compartment which is also fitted with a machine gun and a place for the gunner.

In the tests so far conducted with the Austrian helicopter, according to the reports, the machine has been kept captive by means of cables, allowing it to be hauled back to the earth at the conclusion of a flight by means of a winch. During one such test, the reports assert, the helicopter rose to a low altitude and remained in the air an hour. In another test the machine ascended about 160 feet, carrying a load equivalent to four men, and remained perfectly tranquil in a high wind.

CHAMPIONSHIP BATTLE TO DRAW LARGEST GATE

(By Associated Press.)

NEW YORK, June 16.—The Dempsey-Carpenter boxing bout for the world's championship at Jersey City on July 2 will draw the greatest "gate" in the history of the sport. A month before the fight, Promoter Tex Rickard announced that one seat sales totaled \$650,000. Since that day the sale of all seats has gone on briskly except for the \$50 seats which are exhausted, and the general admission seats, to be placed on sale the day of the fight, Rickard estimates that approximately 65,000 persons will pay \$1,000,000 to view the ring action.

These figures will eclipse by far all previous records for ring contests or any other sport in this country. The Willard-Dempsey battle at Toledo, Ohio, which established the previous record, drew \$451,000 at the box office, a puny figure as compared with what the coming spectacle will attract.

The Harvard-Yale football game and the Indianapolis Speedway race are annually reckoned among the largest and most widely patronized sporting events in this country. Last fall, 79,000 persons were jammed into the Yale bowl when Har-

vard met the Bulldog and the total receipts were approximately \$250,000, or about one-quarter of the amount which will be paid for the coming fight. The attendance at the Indianapolis Speedway event usually ranges between 100,000 and 125,000, but total receipts fall short of what Rickard and his assistants will have gathered in when the going sounds for the first round of the Jersey City battle.

Tex Rickard started his career as a promoter of championship bouts on a large scale when Joe Gans met Battling Nelson in Goldfield, Nevada, in 1906. The receipts for that memorable battle were \$89,715. That figure was topped when Jack Johnson fought Tommy Burns in Australia on Christmas day in 1908, but Rickard again established a high mark in 1910 when boxing fans from all over the country paid \$270,775 to see the Jeffries-Johnson conflict at Reno, Nevada. Figures for the Willard-Dempsey bout at Toledo, July 4, 1919, supplanted even that large total and Rickard, in the coming Jersey City match, has entered the select circle of "million-dollar business men."

PICKED MEN FOR GUARD OF HONOR FOR KING GEORGE

(By Associated Press.) BELFAST, Ireland, June 16.—King George comes formally to open the northern Irish parliament here June 22. It is planned to have a fine body of men as a guard of honor for him.

One hundred men have been drawn from the Royal Irish constabulary for the purpose. None is less than 5 feet in height and all are from Ulster counties.

CONVICTS SHOW HIGHER DEGREE OF INTELLIGENCE

(By Associated Press.) CLEVELAND, Ohio, June 16.—Experiments in penitentiaries show a higher degree of intelligence than earlier degrees of intelligence than the general population. Dr. Herman Adler, of the Cleveland Foundation's justice survey, told members of the Cleveland Academy of Medicine at a recent meeting.

Repeaters, men returned to the penitentiary time after time, show a higher average intelligence than those who learn their lessons the first time, Dr. Adler said.

Criminals who are caught and convicted are not necessarily those least intelligent, but those with an outstanding personality, Dr. Adler explained. An engaging personality is the most frequent cause of miscarriages of justice, he added.

Ten million people in the United States are classed as feeble-minded, that is, they would be confined if brought into court or a mental clinic, he said.

These conclusions were derived from a tabulation of mental tests of 1,700,000 men in the draft army, and 1000 convicts in the Illinois state penitentiary. The tests in turn, were confined by examination of selected groups picked according to military qualifications before the tests were made.

As the affair in Jersey City nears, Ireland probably gets a good laugh at the to-do we make over here about one fight.

Germany is rapidly getting back to normal. Brewers are now permitted to make 25 per cent of their product with 12 per cent alcoholic strength.

The country girl who gets her complexion from nature need not envy the patrons of the pharmacy.

Now that college commencements are over, the thing is to apply the solutions to our problems that have been offered.

Wouldn't it be a fine world if it were as easy for a man to live up to the Ten Commandments as it is for him to live up to his income?

The proposal to reduce the size of paper currency raise the question, whose pockets are o'er full of the stuff?

COMMITTEE OF 5 TO INVESTIGATE UNEMPLOYMENT

(By Associated Press.) DENVER, Colo., June 16.—A special committee of five to investigate unemployment and possible congressional relief was authorized by the convention of the American Federation of Labor. The resolution declared: "Congress should appropriate money in peace times for necessary public works and when a panic develops there would be work for unemployed."

A partisan is a man who is willing to let his favorite newspaper lie to the limit in the interest of his party.

AMUSEMENTS

"OUTSIDE THE LAW" AT THE BUTLER TODAY

By popular request, the greatest melodrama of the entire year, "Outside the Law," with Lon Chaney and Priscilla Dean, will be repeated at the Butler today. There were many who did not have an opportunity to see this wonderful picture at its initial showing, and many who did see it will want to see it again, for it is a picture that can be seen and enjoyed several times. It is a story of San Francisco's underworld and concerns the struggles of a little group of crooks to free themselves from the shackles of crime and live the life they desire. In this they are thwarted and double-crossed by an evil and re-

vengeful figure of the half-world, who resents respectability. In the background, and yet the dominant personality of this drama, is an old heathen philosopher, whose ideas of right and wrong are based on no political states, and who metes out an unsanctioned justice "outside the law." This picture has played return engagements everywhere, and is enjoying the same success as it did on its first showing. It is conceded by all the critics to be the greatest melodrama that has been made in the last year, and prophesied to be the greatest for the year 1921.

Tomorrow, Douglas, McLean, in "The Rookie's Return." Coming, "A Small Town Idol."

IT'S A BARGAIN.

By necessity of my leaving America I am forced to sell my 14-acre Apple bearing orchard. New, modern 4-room house and bathroom. Implements and all. A Splendid Income property.
